

# We Finance Barndominiums

What is a barndominium? Barndominiums are metal buildings with inside living quarters. They can be a full-fledged home with the same floor plan and amenities as a traditional built home, or have a more open floor plan with smaller living space and more room for a shop or garage. As long as your space contains a kitchen, bedroom and bathroom, it would be eligible for our financing program. Barndominium homes are affordable, typically giving you more for your money than a traditional built home. They are low maintenance and energy efficient. Virtually anything you would want in a home is available in a barndominium.

Call us today to learn more about financing your own Barndominium.
